

ADC AD-236

30-lb x 2 Capacity OPL Dryer

Standard Features:

- 30-lb. x 2 capacity
- 10.1 cu. ft. volume
- 80,000 Btu/hr heat input, 400 cfm airflow per pocket
- Radial airflow
- Steel door with gasketless glass
- Single 8" diameter vent connection for both pockets
- Independent electrical connections for each pocket
- Independent microprocessor for each pocket
- Single gas line connection
- Available in 3-phase electric
- Only 28-1/2" wide—fits through a standard 36" door
- Available in gas heat

Standard Features:

- Stainless steel front, cabinet & basket
- S.A.F.E. (Sensor Activated Fire Extinguishing System)

Why Purchase ADC AD-236?

Engineer-Driven Design That is Built to Last

Our dryers showcase ADC's engineer-driven approach to design. Bearings are permanently lubricated on the motor and drive system. There are no chains used at ADC; rather, we use V-belts and pulleys for smooth, quiet, and trouble-free operation. Our dryer cabinets are electrostatically powder-painted inside and out, then baked at 420-degrees fahrenheit before final assembly—ensuring the hardest surface and the longest-lasting finish in the industry.

Component Accessibility

The AD-236 is a dual-pocket dryer that offers 98% component accessibility from the front of the tumbler. This feature allows the dryer to be placed against the wall without concern for regular rear maintenance. The AD-236 has a large lightweight lint drawer that is accessible and easy-to-clean—only requiring cleaning once a day. Its fine, stainless steel lint screen is standard.

Rugged Steel Door with Gasketless Door Glass

Our dryer doors are one solid piece of steel with gasketless glass. This eliminates the issue of glass falling out due to wear and tear on rubber gaskets that some manufacturers use to secure their glass. The security and durability that gasketless glass provides is essential to a successful laundromat operation.

Easy-to-Read, Multilingual Controls

We were the first to bring computer-operated dryers to the market and today we continue to be a leader in applying technology to dryer operation. Our years of experience along with our accessible design, easy-to-read LED screens and our user-friendly multilingual interface positions ADC as the pioneer in the laundry industry.
